New Research Note!

Hi, this is a research note!

There are some tags involved here: [#research](#) [#notes](#)

This is a heading!

We will talk about headings!

And now a subheading

You can add a blockquote using > in a new line.

| See this is a quote!

You can add lists of varying kinds

- Dots
- Dashes?

- ☐ Checkbox unchecked
- ☒ Checkbox Checked

1. Number

You can add monospace font to make it a code block like thing but it does not understand code language

```
import numpy as np
```

You can do colors

And Key	Table Value
1	2

Add photos

Add alt value or captions to images

Embed youtube videos

How it looks like in the notes app

<https://www.youtube.com/watch?v=wjO6OLmZB9A>

Or add videos generally

You cannot embed files!

[PDF Calligraphr-Template.pdf](#)

Each folder or note which name starts with '_' symbol will not be rendered in the navigation so can be considered draft

All that you can embed is mentioned [here](#) or you can see it in the image below
